

**International Conference of Steel and Composite for Engineering Structures**  
**Università Politecnica delle Marche Ancona, Italy**

Dear Scientists,

You are warmly invited to participate in the **Second International Conference of Steel and Composite for Engineering Structures on 12 - 13 September - Ancona, ITALY.**

Oral and poster abstracts are invited on the conference topics and should be submitted using the online abstract submission system.

- Proceedings (full papers with 8-10 pages) of **ICSCES 2022** will be published in [SN Applied Science](#)
- We will consider **Selected Papers** for **Special Issues** (full papers with 20-25 pages) that will be published in:

1- [Frattura ed Integrità Strutturale](#) (Fracture and Structural Integrity) Indexed by Web of Science.

2- [International Journal of Masonry Research and Innovation](#) Indexed by Web of Science.

**Conference topics**

• Control and vibration	• Damage in composite materials
• Fracture and Damage Mechanics	• Construction management
• Damage tolerance	• Safety, security, and reliability
• Big Data Analytics and Artificial Intelligence	• Mechanical and Material Engineering
• Structural Health Monitoring	• Computer-Aided Design and Manufacturing
• Crack Initiation and Propagation	• Performance and optimization
• Computational Fracture Mechanics	• Inverse problem
• Non-destructive testing Signal processing	• Artificial intelligence

**Conference Chairs**

**Prof. Roberto Capozucca**  
**PhD. Samir Khatir**  
**Prof. Gabriele Milani**
